DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 1-3, 6-13 and 18-20 directed to non-elected without traverse filed on Jan.18, 2001. Accordingly, claims 1-3, 6-13 and 18-20 have been cancelled.

Allowable Subject Matter

1. Claims 14 and 21-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 14 and 21-26 are allowed because the prior art of record neither anticipated nor rendered obvious that a thin film transistor (TFT) panel comprises various elements with specific features recited in the following claims 14 and 26:

at least one of the gate wire and the data wire comprises a metal layer and a metal nitride layer (or a metal alloy as a main layer and a metal alloy nitride as a supplemental layer) in which the metal of the metal nitride layer is the same as the metal layer (or in which the metal or the metal alloy is the same as the main layer), and substantially inert to an etchant used for etching a transparent conductive layer so as to prevent the gate pad or the data pad from being eroded by the etchant, and the transparent conductive layer directly contacts an upper surface of the metal nitride (or the supplemental layer) in the contact holes as shown in Fig.4F.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
